Dr. Joshua Lederberg
Department of Genetics
University of Wisconsin
Madison, Wisconsin

Dear Dr. Lederberg:

Thank you for your letter of the 10th of April suggesting I get in touch with Drs. Davis & Pyron. I have already seen Dr. Davis and have acquired one strain from him. The other vitamins requires he had were insusceptible to phage, he said. I intend to see Dr. Pyron soon to see what he can do.

I incidentally, Dr. Demerec just wrote to tell me that I have been accepted in the Bacterial Genetics course given at Cold Spring Harbor. I hope I have an opportunity to meet you there this summer.

I know Dr. Katchmar but haven't yet seen him to communicate your regards. I believe he is graduating this summer (getting his M.D.). He has just recently completed some interesting biochemical research under a grant held by Dr. Jean Oliver in the Pathology department.

Thank you for your suggestions and comments.

Sincerely yours,
Arthur Brown
